Saw Mon Han

FULL STACK WEB DEVELOPER

EXPERIENCE

GoPedagogy , Lashio, Myanmar(Remote)

Junior Full Stack Developer, Jun, 2023 - Current

- Collaborate with a team to design, code, and deploy high-quality web applications using React and Java. Ensure efficient and responsive user interfaces, seamless integration of frontend and backend components, and optimal performance of the application.
- Implement comprehensive testing strategies, including unit tests and integration tests, to identify and resolve bugs and issues early in the development process. Work diligently to ensure a stable and bug-free application, delivering a reliable user experience.

ACE Data Systems Co.Ltd, Yangon, Myanmar Junior Software Engineer, Jun, 2022 – May, 2023

- Demonstrated practical skills in software development, problem-solving, and teamwork during an internship project. Received positive feedback for valuable contributions and ability to deliver results in a real-world, professional environment.
- Achieved significant performance improvements in the Job Agency Office Automation System as a junior software engineer. Optimized database queries, identified and resolved bugs, and implemented new features, resulting in a 30% increase in system efficiency and improved user experience. Received recognition for outstanding contributions to the project's success.
- Successfully contributed to the completion of a hands-on project during an internship, collaborating with team members and making significant contributions to the development process. Demonstrated ability to deliver results in a real-world, professional environment and received positive feedback from mentors and peers.

EDUCATION

MICROVERSE, Jan, 2023 - Current

Remote Full Stack Web Development Program, Full Time

- Attending a highly competitive and intensive Microverse full-stack development program, gaining expertise in React, Ruby, and databases, and collaborating with a global community of diverse students.
- Demonstrated strong dedication and self-motivation as a Microverse student, successfully completing multiple hands-on projects with best coding practices, meeting deadlines, and receiving positive feedback for exceptional work ethic and commitment to continuous learning.

Computer University(Lashio), 2010 - 2014

Degree, Computer Science

 Programming fundamentals, data structures and algorithms, computer architecture, operating systems, software engineering, database systems, computer networks, web development, artificial intelligence, and cybersecurity. sawmon71293@gmail.com
