EXPERIENCE

REI , *China (Remote - part-time)*
API Engineer, Jun- 2023 to Current
■ Designing and Developing Scalable APIs: As an API engineer, I was responsible for architecting and creating robust APIs This involved understanding the needs of various stakeholders, designing API endpoints, and implementing them using best practices to ensure reliability and performance.
■ Collaborating with Cross-functional Teams: Working as an API engineer required close collaboration with product managers, front-end developers, and backend engineers. I actively participated in discussions to gather requirements, provide technical insights, and address integration challenges.
📖 Tech Stack: C#, .Net Core, PHP, Laravel

ACE Data Systems Co.Ltd, *Yangon, Myanmar*
Junior Software Engineer, June - 2022 to May - 2023
■ Successfully contributed to the completion of a hands-on project during an internship using Java and Spring Boot collaborating with team members and making significant contributions to the development process. Demonstrated ability to deliver results in a real-world, professional environment and received positive feedback from mentors and peers.

■ Achieved significant performance improvements in the Job Agency Office Automation System, Pharma POS and LMS as a junior software engineer. Optimized database queries, identified and resolved bugs, and implemented new features, resulting in a 30% increase in system efficiency and improved user experience. Received recognition for outstanding contributions to the projects' success.
📖 Tech Stack: Java, Spring Boot,C#, .Net Core, React, Redux, Typescript, MSSQL, MySQL

EDUCATION

MICROVERSE, Jan, 2023 – Current
Remote Full Stack Web Development Program, Full Time
■ Attending a highly competitive and intensive Microverse full-stack development program, gaining expertise in React, Ruby, and databases, and collaborating with a global community of diverse students.
📖 Tech Stack: JavaScript, React, Ruby, Postgres.

First Certificate in English (Cambridge Assessment English - B2) , 2019

IMCEITS (India-Myanmar Center for Enhancement of IT Skills) , 2015
■ Certificate in Java Programming

Computer University (Lashio), 2010 – 2014
■ Degree, Computer Science

SKILLS

Front-End:
HTML5, CSS3, JavaScript, jQuery, React, Redux, Bootstrap, TailwindCSS, Vue.js, Typescript

Back-End:
Java, Spring Boot, C#, .Net Core , PHP, Laravel

Database :
MySQL, MSSQL, Postgres, Firebase

Tools & Methods:
Git, GitHub, GitLab, Scrum, Mobile/Responsive , Figma, Linux, Windows

Professional:
Remote Pair-Programming, Teamwork, Time management, Communication, Attention to Details.

PROJECT EXPERIENCES

Learning management system (LMS)
Built with : Java ,Spring Boot, MySQL, SpringData JPA, React, Redux, MUI.

Pharma POS
Built with : Java, Spring Boot, React, Redux, MUI, React Query

Office Automation System
Built with : C# ,Dot Net core 3.1, ReactJS, Typescript, Redux
